Introduction

Jobs that are sent into RFID Hotel should adhere to these guidelines as closely as possible. By meeting these guidelines, there is a greater opportunity to reduce the overall cost of your job by reducing the amount of time that we spend altering, correcting, and/or preparing your file(s) - and subsequently, the faster your order will move through our shop.

How It Works:

We will provide up to two proofs per customer, at no charge. The requirements are fairly straight-forward, and if you take them into consideration prior to starting the job, they will not be a problem at the completion of your job.

Custom Key Card Art Requirements:

- File format: .psd, .eps, .pdf or .ai
- Resolution must be at least 400 dpi
- Color mode must be set to CMYK or Pantone
- Bleeds are required and must be 1/8th inch (25.4 mm) on each edge
- Fonts must be outlined
- Use this CR-80 Credit Card size template, sized 3.375 x 2.125" when submitting your artwork document.
